SYDNEY ACCORD

Higher National Certificate/Diploma Qualification Assessment Request Form Price: £58.75

The Engineering Council, as the UK signatory to the Sydney Accord, is able to assess UK Higher National level qualifications (HNC, HND, HC, HD) for recognition under the Sydney Accord for the purposes of migration to other signatory countries, where the qualification was started before September 1999. [From September 1999 these qualifications no longer satisfy the requirement.]

Where the Higher National qualification held by an applicant migrant is not listed on the Engineering Council website, and providing that certain criteria are met, a letter of attestation will be provided by the Engineering Council to accompany the application for qualifications assessment under the Sydney Accord. Where the requirements for recognition under the Sydney Accord are not met, a letter will be issued providing this information and brief guidance on how to continue the migration application through alternative routes for qualification recognition.

Whilst the Engineering Council provides assessment of a qualification, it is not able to guarantee that the receiving country will recognise the qualifications even when accompanied by a letter of attestation.

A copy of the qualification certificate and transcript (which details the modules studied) must be enclosed with this request.

This service is provided free of charge to registered Incorporated Engineers as a benefit of registration, but is provided at the cost of £58.75 incl. VAT to all other applicants. Incorporated Engineers are required to provide their registration number (or date of birth, where registration number is not known) for verification purposes.

Please complete in BLOCK CAPITALS Title (Mr, Mrs, Miss, Ms, Dr, etc.) _____
